

Road Angel®

Roadside assistance for fleets.

Road Angel® protects your drivers and vehicles during a breakdown. Specifically geared towards fleet vehicles, benefits include towing, fuel delivery, extrication assistance, and more.

Your fleet's 24/7 roadside protection for nearly any situation.

Protect your most valuable assets with an emergency roadside assistance program developed for the specific needs of fleet vehicles.

✓ Vehicle Towing

When a covered vehicle breaks down, Road Angel® covers towing to an issuing dealership up to 25 miles away, or to the nearest qualified service facility.

✓ Mobile Mechanic

When a vehicle's disablement can be resolved roadside, a mobile mechanic may be able to help you avoid a tow and get your driver back on the road quicker.

✓ Lock-Out Assistance

Don't worry about drivers locking keys inside of a covered vehicle. Road Angel® ensures they'll have assistance getting back into the vehicle so they can get back on the road.

✓ Emergency Fluid Delivery

Running out of fuel or overheating on the highway isn't fun, but it happens. When a vehicle covered with Road Angel® is in need of fluids like fuel, oil, or water – it'll be delivered to the driver.

✓ Savings Connection

There's more to Road Angel® than fleet protection. With the Savings Connection, you and your drivers can save up to 50% on hotel stays, car rentals, theme parks, restaurants, retail stores, and more.

✓ Battery Service

Covered vehicles will get a jump-start after a battery failure so your drivers aren't stranded without help.
